Petition for Energy Independence in Vermont

Recognizing Vermont's significant potential for generating clean, environmentally sound and sustainable electrical energy from our natural water resources: Due to the upcoming expiration of the HydroQuebec and Vermont Yankee contracts; And due to the documented effects of global warming upon our planet; We, the undersigned voters of the Town of ______, call upon the Governor and our State and Federal Legislators to: Simplify state and federal permitting to allow for more rapid development of Check this box environmentally sound, small-scale hydroelectric projects. if you'd like to join a local, renewable energy committee Name (signature) Name (print) Address Phone/Email (optional)
